TO WHOM IT MAY CONCERN:

Please grant petition 98P-0151/CPI, both for the sake of the non-ambulatory animals so cruelly neglected when brought to slaughterhouses, and for the sake of those of us, who, like myself, no longer feel safe eating meat.

I have personal knowledge of the common practices of cruel indifference to sick and injured animals brought to slaughter via a good friend who drives cattle trucks. Accidents of injury do occur in the process of trucking these animals to the slaughterhouses. To save expense, these animals are often discarded like so much money gone bad, like garbage, & denied euthanization by a veterinarian. Or, they're pushed through, even if diseased!

I will be watching for news that proposed laws to outlaw the use and abuse of "cloned" livestock have been implemented, and wish to hear from you about the disposition of Petition 98P-0151/CPI.

98P-0151

Very truly yours, C3359  
Patricia E. Culver,  
Citizen, Taxpayer, Voter
